### Pharmaceutical synthesis

The Pharmaceutical Synthesis business generated €42.7 million, up 41.1% on 2016 (+41.1% at a constant exchange rate), which was especially driven by the Exclusive activity, which was boosted by an exceptional order from an international client. Without that order, its growth would have stood at 16.3% (16.0% at a constant exchange rate).

### Fine specialty chemicals

Net sales of Fine Specialty Chemicals totaled €17.4 million, up 15.6% on 2016 (+14.5% at a constant exchange rate), with growth in both Performance Additives and Advanced Specialty Chemicals.

### Outlook for the current year

The company thus confirms its targets for growth in net sales in 2017 and for all its lines of business (perhaps at a less rapid pace than the growth of the 1<sup>st</sup> quarter), thereby leading to an increase in net income.
